

# AL SAFEENA STEEL

“Our Products & Customer Service is as strong as steel”

# ABOUT US

With over 20 years experience, Al Safeena Steel has established itself as an industry leading and reputed steel fabricator across the United Arab Emirates.

Key to our success is our fantastic customer service, our commitment to our customers and the quality of our products designed by our workers, many of whom have been with us right from the start of our journey.

Our factory in Sharjah is equipped with modern and advanced machinery capable of catering to our various client needs. We excel in design; fabrication and supply of hot rolled structural engineering services, project management and cost control.

So what ever your fabrication needs are, you can be assured that Al Safeena Steel's team of highly experienced engineers and technicians will be capable of handling them to your exact specifications.

## MISSION

To provide excellent customer service and be seen as a trusted business partner by our clients for their various steel fabrication needs

**“Our Products  
&  
Customer Service is  
as strong as steel.”**

## VISION

Aiming to be your first choice for steel works for a stronger tomorrow

## VALUES & GOALS

- Producing **high quality** bespoke products at market competitive rates.
- Managing **the entire customer journey** from understanding your specific fabrication needs to producing the final good.
- **Partnering with our customers** so that we can maintain long term trust and relationship with your organization.
- **Excellence in customer service.**

# SERVICES
